

Tech note for how to keep your default or favorite soft keyboard

Access the NFC setting, by using either of the two options below:

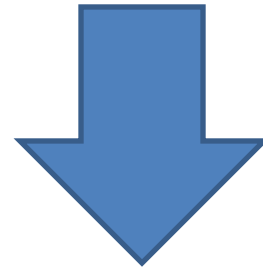

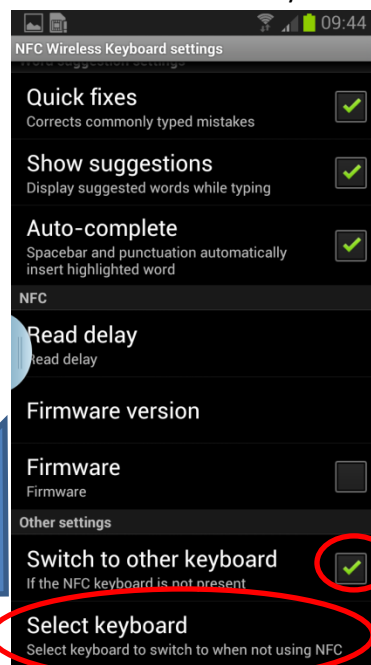

Option 1:

Choose your default preferred soft keyboard. This is located under setting -> language and input. Press the setting button.

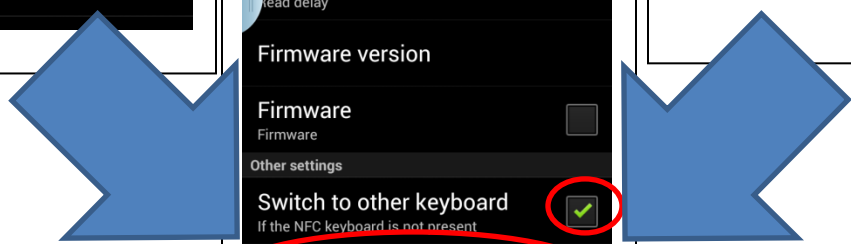

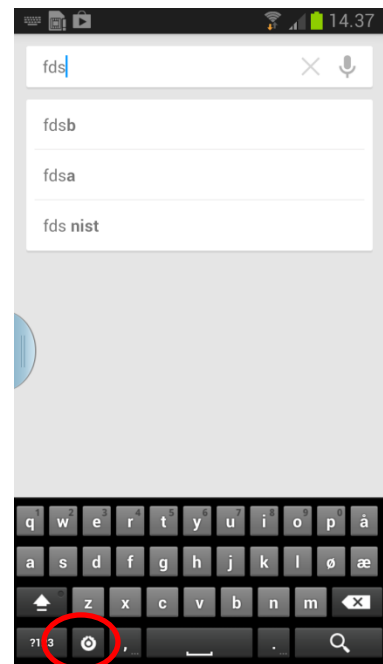

1. Tick the checkbox next to "switch to other keyboard" as picture show.

2. Choose the select keyboard

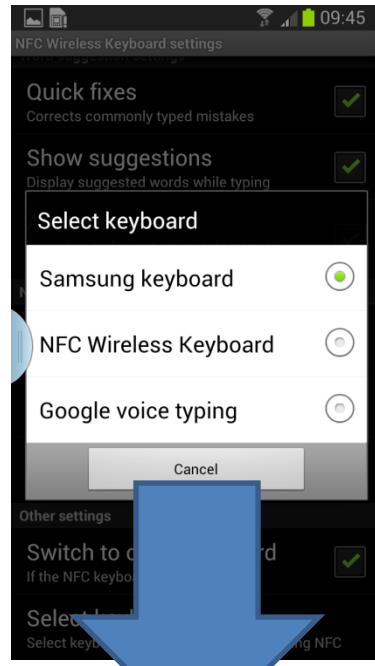

Option 2:

Press the setting button shortcut directly on the one2touch soft keyboard.

Choose your default preferred soft keyboard in the pop-up box.

When placing the phone on the NFC keyboard, you need to choose "NFC wireless keyboard"
